You're Invited: Networking & Support Event – March 30

In times of change, community makes all the difference. Join us on March 30th at 11:15 AM, right after the service, for a special Networking & Support Event for federal workers, contractors, small business owners, and individuals affected by recent layoffs and policy changes.

This is a time to come together, show appreciation, and offer support—whether through job connections, resources, or simply encouragement. Everyone is welcome! Whether you've been impacted or just want to uplift those who have served our nation, your presence matters.

Let's gather in faith, friendship, and hope. All are welcome.
